

Chemistry Seminar Schedule  
 Fall 2016  
 Aliso 150  
 Fridays at 1 PM

August 28	Undergraduate Research – Chemistry Faculty
<b>September 4</b>	Dr. Simon Garrett – CSU Northridge <i>Ancient to Modern: Studying the Corrosion of Metal Alloys using Surface Science.</i>
<b>September 11</b>	Dr. Sandra Loesgen – Oregon State University <i>Natural Products in Drug Discovery – Targeting Viral Sweet Spots and Superbugs</i>
<b>September 18</b>	Dr. Thomas Lazzara – Meissner Filtration Products <i>Membrane Technology: From water desalination to pharmaceuticals</i>
<b>September 25</b>	Dr. Martin Pomper – Johns Hopkins Medical Institute <i>Molecular Imaging: from Chemistry to Clinic</i>
<b>October 2</b>	Dr. Byron Purse – San Diego State University <i>TBA</i>
<b>October 9</b>	Dr. Benjiman Harvey – China Lake NAWCWD <i>TBA</i>
<b>October 16</b>	Dr. Andro Rios- NASA Ames Research Center <i>Metabolic compounds detected in carbonaceous meteorites: Clues for a prebiotic origin of citric acid cycle organics?</i>
<b>October 23</b>	CI Student Research Presentations
<b>October 30</b>	CI Student Research Presentations
<b>November 6</b>	Dr. Scott Oliver – UC Santa Cruz <i>Porous Inorganic Materials for Environmental Applications</i>
<b>November 13</b>	CI Student Research Presentations
<b>December 4</b>	Dr. Javier Read de Alaniz – UC Santa Barbara <i>Design and Development of Photoresponsive Materials</i>
